Technical Bulletin

BULLETIN: TB02-06-01

ISSUED: 6/7/02

SUBJECT: Extended radiator shrouds for the 2002 X440s model motorcycles are now available through our parts department. Supplies of these extended shrouds are limited.

RADIATOR SHROUD, EXTENDED, LEFT - P/N 5001989A

RADIATOR SHROUD, EXTENDED, RIGHT - P/N 5001988A

When operating under extreme conditions or racing, installation of the extended shrouds (left and right) can increase the airflow across the radiator reducing the overall engine operating temperature.

The shrouds are considered optional performance enhancement parts.
No modifications are necessary for installation.

Information is subject to change without notice.
